SS FILTERS PVT. LTD.

AN ISO 9001:2008 COMPANY

Specification sheet

PP/ POLYESTER FILTER PADS

SS Filters offer circular filter pads/sparkler filter pads in different filter fabric like polyester/ polypropylene & Nylon in both woven & non woven material. They come in all sizes as per requirement.

Polyester: Polyester cloth comes in various qualities. The quality is differentiated as per gsm (Gram per square meter). Polyester is not acid registered. It is mainly used to make dust collection bags for bag houses.

Polypropylene Spun: Polypropylene spun is mainly used in place of polyester if the material to be filtered is acidic in nature. It is used to make centrifugal filter bags and also used in filter presses with PP plates. Polypropylene filament has a better make releasing property.

Custom made woven / Non woven pads of different GSM can be made available on request.
